Sunshine Coast
Council

Forum Objectives

- **Understand the leverage potential of the investment in the hospital and health precinct for the Coast's economy**
- **Identify the industries that could benefit from the 'ripple effect'**
- **Identify what decisions or actions are required to ensure that the industries are ready to exploit any opportunities**
- **Provide practical input in to the SCC Economic Development Plan**

What is the 'ripple effect'

The **ripple effect** is a term used to describe a situation where, like the ever expanding ripples across water when an object is dropped into it, an effect from an initial state can be followed outwards incrementally. *Wikipedia*

In terms of the forum today, it is used to describe the opportunities that may be created across industries as a result of building or operating the hospital and health precinct, e.g. supplying or servicing the actual hospitals or ancillary services, or the people who are employed to provide the services.

State Government's Commitment To Sunshine Coast and the SCUH Development

**Hon. Fiona Simpson Member for
Maroochydore and Speaker of the
Queensland Parliament**

SCC's Commitment To Exploiting the 'Ripple Effect' Potential

Mayor Mark Jamison

Workshop 1

- 1. Review and comment on the SCC/AEC industry sectors and identify any sectors omitted.***
- 2. Rank the industry and sub-sectors by the potential to benefit from the 'ripple effect' and identify why.***

Report Back

5 minutes report back by each group

A horizontal banner image showing a sunset or sunrise sky with orange and yellow clouds.

Workshop 2

Identify the decisions or actions that need to be undertaken, and by whom, to enable the prioritised industry sectors to be operating at a level capable of maximising any potential benefits from the 'ripple effect' by 2016.

Report Back

7 minutes report back by each group
